ALS QUALITY POLICY STATEMENT

Abnormal Load Services UK International Limited - ALS' mission is to provide multimodal logistics solutions through a personal service to a wide range of clients and industry sectors including power, oil and gas, renewable energy, construction, mining, and tunnelling services.

ALS' ambition is to combine over 40 years' knowledge, experience and expertise in the handling, transportation, and delivery of "exceptional" cargo.

The ALS team is dedicated to consistently offering the highest level of service to its customers, ensuring satisfaction regardless of the type of cargo or its destination.

ALS' strapline reinforces our promise that "every single cargo is precious to us".

Our success in managing the movement of general cargo, heavy haulage and abnormal loads has brought us a wide and loyal client list and is based on:

- Using our experience to benefit every client.
- Always applying a positive attitude to every situation.
- Commitment to getting it right every time.
- Dedication to solving problems.
- Using our ability to achieve the best result.
- Lessons learnt from any problems encountered.

This commitment extends from the Board of Directors to all ALS employees and is reviewed regularly for compliance to sector specific regulations together with the clients own specific requirements.

This policy is supported by a fully documented quality management system based upon the requirements of the International Standard for Quality 1SO9001:2015.

ALS' QSM Manager regularly monitors the performance of ALS' quality system for compliance and necessary improvements with the requirements of the standard and set targets and objectives for reviewing.

Signed:  Date:23/08/2023

Matthew Peacock
UK General Manager
